

# Leadership in Action

## A Coaching and Training Program for Leaders

***Leadership in Action*** is a customized, live and interactive 3-month online leadership program that focuses on the most pressing needs of your leaders and provides them with the tools, support and knowledge needed to turn learning into action.

*Leadership in Action* includes a series of customized learning topics delivered through each of the below mediums over the course of 3 to 4 months. Learning topics are selected based on the specific needs of your leaders to ensure they develop the skills, knowledge and tools needed to strengthen team, leadership and organizational performance.

### Interactive Webinars

By participating in these customized, live and interactive webinars your leaders gain new knowledge and tools to strengthen identified areas of need and gain the opportunity to collaborate with and learn from other leaders within your organization to share best practices and experiences.

### Coaching

Each leader receives up to three hours of one on one coaching sessions over the course of the three months. This gives your leaders additional support and guidance for applying the learning from the program and addressing any additional leadership challenges that may be preventing them from tapping the best of themselves and those they lead.

### Learning Bites

Delivered every two weeks these emails provide participants with additional knowledge and tools to maintain the momentum gained from the webinars. Learning Bites can include:

- Additional tips and tools for transferring learning from the webinar to the workplace.
- Short, customized videos of Nicole Bendaly sharing additional best practices and anecdotes to spark creativity and motivation.
- Success stories of workshop participants as they begin to see positive change through the learning and application process.

## **Dedicated Website**

Your leaders will gain access to a private website dedicated to their learning experience. The website will include easy access to all of the tools shared throughout the program along with access to the recorded webinars.

## **Pre and Post Assessment**

Each leader will complete a needs assessment that will help us to ensure the program meets their specific needs. Upon completion of the program each leader will complete a post-assessment to help measure the impact of the program.

## **A Customized LiA Learning Plan**

This plan outlines recommended learning topics for review and approved by the organization. Please see the sample schedule on the following page.

## **A Personal LiA Development Plan and Goal Setting Template**

Each participant will be asked to set specific goals to be achieved over the course of the program. Participants will receive support for achieving their goals during their coaching sessions.
