

Thriving in Times of Change

How to build a change compatible team

It is true that change is the only constant but that doesn't make it any easier to manage. As a leader, developing your team to be open to and ready for change is a key responsibility and competency, along with ensuring your team has the ability to execute change effectively so that it sticks over the long term.

Through this workshop you will learn:

- The differences in how people experience and respond to change.
- How to effectively support team members through change.
- How to develop buy-in and support for change.
- How to develop and implement a change management plan.
- How to ensure change sticks.
- How to create a culture of change compatibility within your team.
